(II)

Sanford's Radical Cure for Cartarrh is a safe, certain, and permanent cure for catarrh of every form, and is the most perfect remedy ever devised. It is purely a vegetable distillation, and is applied locally by insuffaction, and constitutionally by internal administration. Locally applied relief is instantaneous. It soothes, heals, and cleanses the massi passages of every feeling of heaviness, obstruction, dufiness ordizatioes. Constitutionally administered if removates the blood, purifies it of the acid posson with which it is always charged in catarrh, stimulates the stomach, liver and kidness, perfects digestion, makes new blood, and permits the formation of sound, healthy tissue, and finally obtains complete control over the disease. The remarkable curative powers, when all other remedies unterly fail, of Sandford's Radical Cure, are attosted by thousands who gratefully recommend it to fellows differers. No statement is made regarding it that cannot be substantiated by the most respectable and reliable references. It is a great and good medicine, and worthy all confidence. Each package contains a treatise on catarrh and Dr. Sanford's Improved Inhailing Tube, and full directions for its use in all cases. Price \$1.

Washington Av., City.—Dear Mellier: I have for some years been troubled with catarrh, and for the past two years have suffered scriously with it. Noticing your advertisement of Santord's Remedy (Badical Cure, I decided to try it. I have used only two bottles, and as a result I feel so much relieved that I persume of our personal relations and write this to you and ask that you take some measures to get it more prominently before the public, that others may have such relief as fore the public, that others may have such relief as I have. I have recommened it to quite a number of my friends, all of whom have expressed to me their high estimate of its value and good effects with

I really think it particularly adapted to wants of I really think it perficularly adapted 5 wants of St. Louis people, and they all ought te know of it, and those who need it should try it. I will risk the assertion that 1000 lozz vials (as a sample) to be given away will sell as many bettles. Try some plan. Let the people have it; they need it. I believe I could sell 3000 bottles myself-of course you could largely increase this number. Why not try it? Yours truly, WM. 30WEN.

WEEKS & POTTER: Gentlemen—One year ago was selzed with a severe actack of Rheumatism in my right hip, to which I was subject, I tried the various inliments and rhoumatic cures, but without least behout, when my son, a druggist, suggested one of year Collins Voltaie Plasters. The effect was almost magical, for to my grateful surplise. I was almost magical, for to my grateful surplise. I was almost magical, for to my grateful surplise. I was almost immediately well again, and was able to work upon my farm as usual, whereas, before the application of the plaster. I could do nothing, and every step give me path, few weeks since, one year from the presentation, the disease returned, but I am happy to say the second proved as efferctions as the first and I am now well. My wife w sheek me to add that one plaster fascured her of a very lame tack. We think there is nothing in the world of remedies that can compare with the Collins Voltale Plasters for rheumatism and lame back, and cheerfully recommend them to the suffering. THE REFORM CRUSADE IN THE CIVIL SERVICE.

MOVEMENT TO SECURE SUPERVISING ARCHI-TECT BILL'S REMOVAL - NEW BIDS FOR THE CONSTRUCTION OF THE MEMPHIS CUSTOM-HOUSE - THE PROPOSED TRANSFER OF

GOLD COIN BY MAIL. Washington, August 12 .- When the work on the Memphis custom-house began. Schneider of St. Louis had the contract for furnishing the stone. Congress at its late session changed the character of the stone to Tennessee marble. The treasury department relet the contract to Schneider, as he had begun on the first contract. When Casey Young, member of congress from Memphis, returned to his home from the session of congress, he got up a meeting and sent a protest to the treasury department against the fulfillment of Schneider's contract, alleging that Tennessee men should have a chance at furnishing the marble Sherman ordered a suspension of the work. advertised for proposals and to-day they were opened. They are all less than the contract made with Schneider. As that was known to the public, Schneider protested RHEUMATISM and bid without waving his protest. While the of the opening of the bids will not be declared until Secretary Snerman and Su-

pervising Architect Hill returns, it is known Cairo, III. Collin's Voltaic Plasters. that a brother-in-law of Casey Young is one of the lowest bidders.

THE REPORM CRUSADE.

The removal of Burling, superintendent of the Chicago custom-house, was but the Wisliam Henry Smith, collector of customs at Chicago, is the leading crusader. The fight has now set in to have Supervising-Architect Hill removed, and emissaries from Chicago are here on that business. They were busy to-day trying to gather certain evidence showing Hill's complicity in corrupt transactions in several cities where pubtic buildings are being erected. Hill is at present in San Francisco. Hill's friends say the fight on him has become a personal matter with William Henry Smith and one of political advantage with ex-Congressman C. B. Farwell of Chicago, who, while not much of a reformer, has been working with Smith in this case. Burling, the superintendent who was removed, was not friendly to Farwell's design of being returned to congress, while Mc-Donald, the new superintendent, had in Farwell his principal supporter for the place. William Henry Smith, when he originally made the charges against the work on the building, charged Hill with being implicated. Assistant Secretary French examined the charges and replied

fid Mr. Hill, and the latter's friends say that this is the cause for the present endeaver to secure Hill's removal. GOLD BY MAIL. The treasury department proposes to try the experiment of shipping coin by mail in order to save the cast of transportation, and will send seven millions in gold from San Francisco to New York in four pound packages, which is the heaviest package that can be carried by mail. This will make about one thousand dollars to the package. The whole quantity will weigh about fourteen

Washington, Aug. 12.—President Hayes accepted the invitation of the Minnesota State Fair association and will attend the Twentieth annual fair to be held at St. Paul from the 2nd to the 7th of September. It is the intention of the president to visit his home in Fremont, Ohio, the last of this month, and he will go to St. Paul by way of Chicago the evening of the 3d of September. If agreeable to the guests there will be an excursion to the Red river of the North and across the great plains of Dakota.

THE CHINESE EMBASSY. The reception of the Chinese embassy here next September will not be exceptionally elaborate. The Chinese ambassador will be received by the president and cabinet in the same manner that other foreign ambassadors are received. The president does not anticipate any trouble in being able to convince the embassy to take the same view he maintains on the subject of Chinese immigration, and it is thought China is not opposed to limitation of emigration of her people to this country. Minister Seward will be here at the time of the embassy's visit and will facilitate the transaction of business between the representatives of the United States and China.

MEMPUIS, Tenn., August 12.—At the meeting of the board of health to-day Chas. Winston, engineer of the ferry-steamer John Overton, stated that as the Colorado was passing down, about 10 o'clock Saturday morning, she was signaled by the Maude, whereupon she rounded to and received the Maude's passengers for Memphis. Acting upon this information the board ordered Chief Athy of the police force to arrest the captains of the two steamers charged with the offence against the quarantine regulations, also notified Capt. Storm, the Memphis agent of the Anchor line, of his liability to arrest for receiving such freight. Your reporter has just interviewed Capt. Storm on the subject, and he reports the charge entirely without foundation, and says that the boats met in the river to transfer the mail-agent, which transfer had usually been done at Memphis. No freight and no passengers were transferred.

GRENADA.
From Grenada the wires were burdened all this morning with dispatches of the most sensational character. More physicians and nurses were wanted by the city authorities, and the various benevolent ladies of that place sent pleading dispatches for assistance of the same character. The crowd around the telegraph office and the reading and repitition of dispatches received by the public and private individuals served to work up our people into a condition of excitement amounting nearly to a panic, the consequence of which will be
